Functions and Capabilities

- Efficient management of duplicate records
- Comprehensive user access control
- Easy access to client records
- Integration of electronic digital forms
- Management of unstructured data storage
- Compatibility with various form management platforms
- Streamlined consent management workflows
- Diverse referral transmission formats and intake types
- Cross-program referral management
- Advanced features in the invoicing module
- Tracking of denials, appeals, and disputes
- Robust API structure for system integration
- Support for data migration or exchange
- Assurance of data ownership and rights
- Provision for data handling upon contract termination
- Efficient data extraction processes and formats
- Historical and longitudinal record reporting
- Enhanced support for customer reporting and tools
- Robust encryption and security protocols
- Compliance with international data protection regulations (e.g., SOC-II, Hi-Trust, HIPAA)
- Regular security audits and compliance checks
